Dear AYLUS Lexington Branch,

Congratulations on raising more than \$2,000 through your successful fundraiser! I'd like to make a special shoutout to Michael Feng, Audrey Feng, Ella Li, Yian Xie, and Owen Jiang for their tremendous efforts that ultimately led to more than doubling your fundraising goal. Community fundraising is how the Jimmy Fund began and we are so grateful to you for carrying on the legacy of taking care of those in need. Thanks to your efforts, Dana-Farber Cancer Institute continues to strive for a cure for cancer and provide the highest quality patient care.

Thanks to the generosity of our community, Dana-Farber has made unparalleled progress in cancer science and treatment and is well-positioned to bring even more research directly from bench to bedside. Your support fuels these vital initiatives that represent the core of our mission, and we are truly grateful for your thoughtfulness.

As your personal point of contact in the office, please feel free to reach out to me directly if you have any questions or are interested in fundraising again in the future. We will continue to keep you updated on the progress happening at Dana-Farber and look forward to working together on future fundraising initiatives. On behalf of our patients and their families, thank you for your dedication, effort, and support of Dana-Farber.

Sincerely,

A handwritten signature in black ink that reads "Catie Jones".
